

My Artworks

This PowerPoint includes:

The pictures from the Blog you read.

Other artworks I have done in the past.

Artworks I would like to do in the future.

This was the most recent artwork I have done. I made it just before Halloween so that is why it is so gory. I made this on a circular canvas that I got from Liptons and I used my water paints.

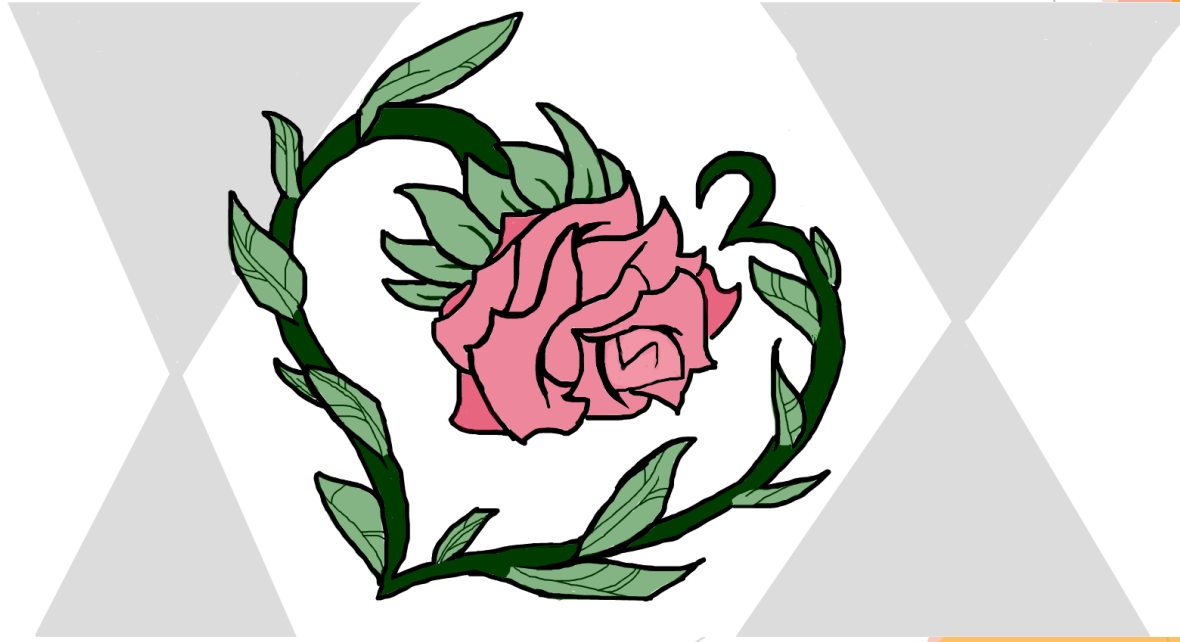

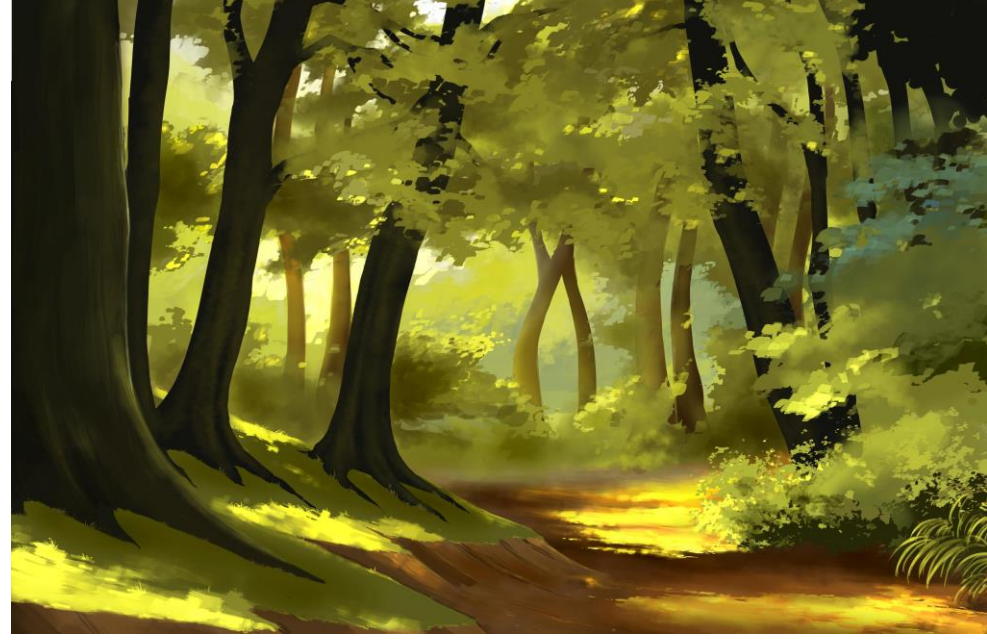

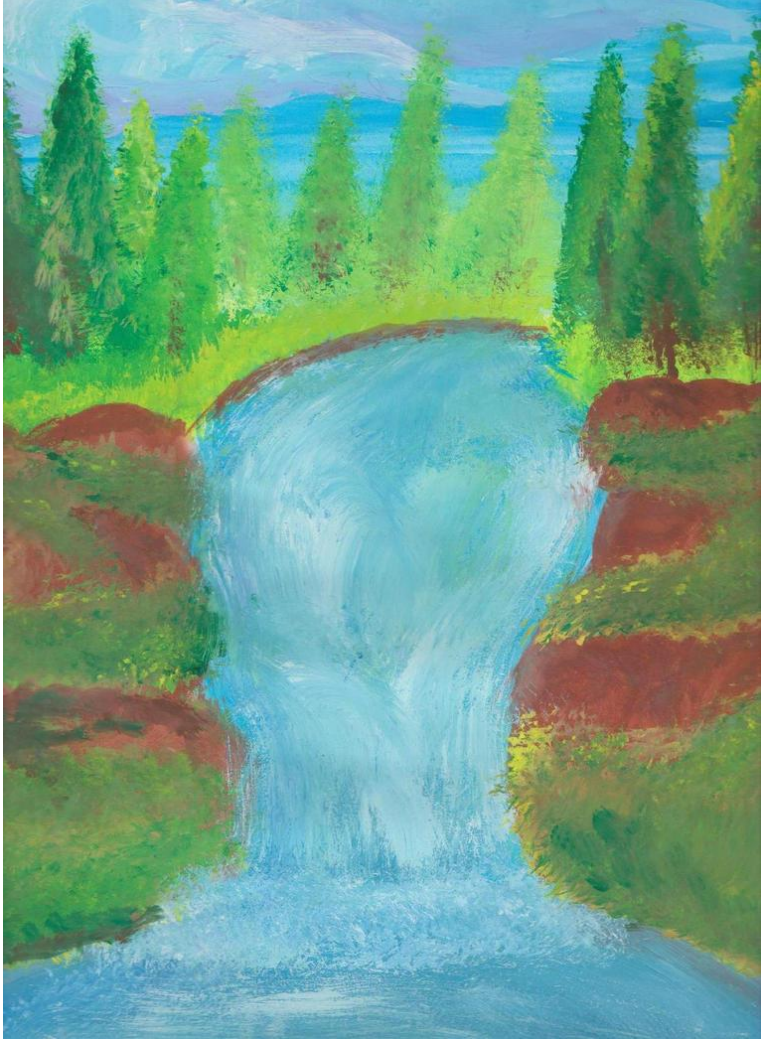

This was a drawing that I drew one time when I was bored but it came out quite nice. I tried to make it seem as if the eye was “evil” and I did that by drawing the pupil as a swirl and by using the colour purple. For this I also used the water colours.

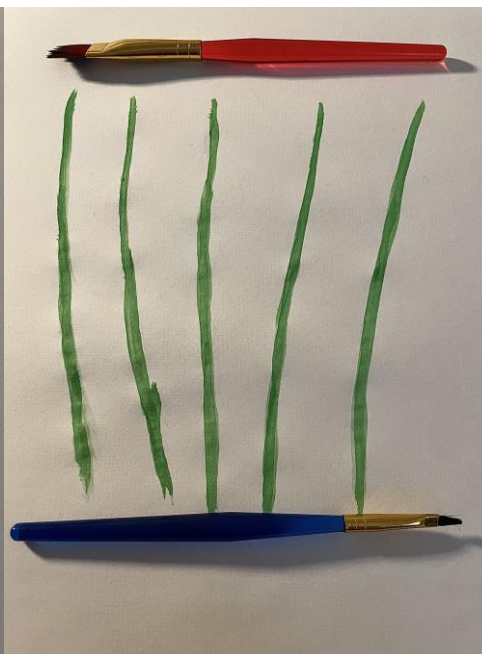

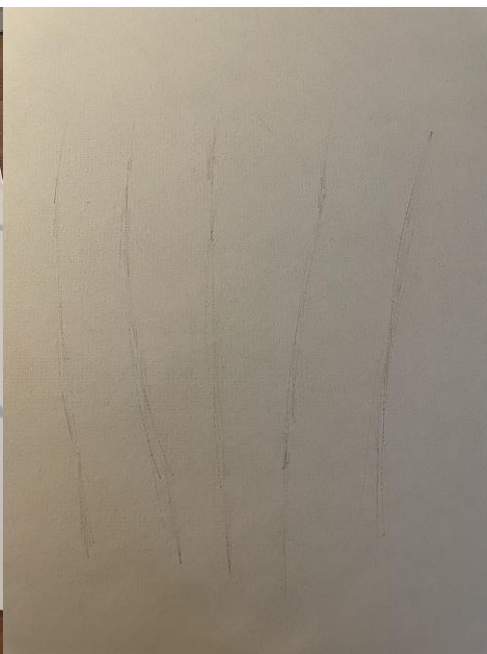

I also drew this when I was bored and this was 100% my idea I only had to look up drawings of aliens for a reference picture and I used the exact same paint as the other paintings I showed you.

Here are a few things that I want to draw/paint in the future

Here are the pictures from the blog:

This is the end of the slide

I did not add all of the things that I did/want to draw because there is so many and I wanted to keep this PowerPoint nice and short so there wouldn't be much to read as you have already read my Blog
